The Fight Near Gasan on July Twenty-A New Story.

VICTORIA (B. C.) Aug. 16. - The steamer Tacoma from Hong Kong brings the following account of the naval battle of July 20 in the neighborhood of Gasan of July 20 in the neighborhood of Gasan:
Three Japanese men-of-war, the Akitsuhima. Takachibo and Naniwa, met at
sea the Chinese cruiser Tsi-Yuen with a
small dispatch boat, the Ko-Otau, and the
transport Kow-Shung, and, after an enragement lasting an hour and twenty minutes, captured the dispatch-boat and sunk
the transport, while the cruiser escaped. To fully appreciate this action, the relative strength of the combatants must be considered. On the Japanese side were the Akitsuhima, with a tonnage of 2150 and a speed of 19 knots; the Takachiho of 3700 tons, with a speed of 18 knots, and the Neutre fully as large powerful and the Naniwa, fully as large, powerful and swift as either of her companions. The armament of the three included one for-ty-two-ton gun, four twenty-eight-ton guns, twenty quick-firing and thirty-two machine guns.

machine guns.
On the other side was the Tsi-Yuen with a tonnage of 2355, 2800-horse power and a speed of but 15 knots and carrying two a speed or but 15 knots and carrying two eight-and-one-quarter-inch guns, one five-inch and nine machine guns. The dispatch-boat was unarmed, and, being a wooden ship, not steaming more than 8 knots, her power of resisting capture was as small as her capacity to evade it.

her capacity to evade it.

The Japanese warships were proceeding toward Jinsen, when the Chinese vessels were met. The Chinese warships, seeing the Japanese, opened their ports instead of observing the usual courtesies, and began the fighting, apparently to cover the retreat of the transport steamer, which left, promptly pursued by the Naniwa. At this juncture the transport was fiying the white flag, as well as the English colors. What happened to her was not seen by the combatants, but was reported by the Naniwa.

Her officers state that the flag of sur-

Her officers state that the flag of sur-render was no sooner displayed than the Chinese on board prepared to attack the boarding party from the Naniwa, and, in fact, did fire on them as they came alongside. The boats then returned to the cruiser and the transport was sunk with one well-directed shot.

one well-directed shot.

Meantime the Takachino and Akitsuhima engaged the Tsi-Yuen and KoOtsu. The former, after fighting stubbornly for over an hour, displayed the flag of surrender, and the Japanese men-of-war were approaching her, when she suddenly discharged a torpedo, which, however, the Japanese were able to dispose of.

The engagement was then renewed more hotly than ever till finally the Tsi-Yuen turned and made off at full speed toward Jinsen, being pursued for a hundred miles by the Japanese, but not overtaken. The Ko-Otsu got aground in shallow water while seeking sheltered anchorage, and thus fell an easy captive to the Japanese. The Chinese fired their guns much more rapidly than their opponents, and had they not been so greatly outnumbered would undoubtedly achieved a victory. As it was, at is testimony to the skill of the Tsi-Yuen's commander that he fought fow of Japan's best ships for a full hour and then escaped.

Since the naval fight off Qasan, the running of Japanese steamers between Jinsen and Fusan has been suspended. General

march troops into Korea by way of White, and the Japanese government is said to be taking steps accordingly.

The Queen of Korea, reported missing, is under medical treatment, as she is attacked with malarial fever. At the time of the sailing of the Tacoma from Yokohama four Chinese transports were reported missing, and were supposed to have been destroyed in a typhoon or captured by the Japanese. The government of the Island kingdom was still hurrying men and sup plies to Korea, not forgetting even an im-mense crematory plant to follow up the land forces and consume the dead. "While approaching their camp a rapid fire was opened on our ranks. I was captured, tried and sentenced to be shot. Two hours before the execution, while lying beend to a tree, I heard a Frenchman's voice and began talking to him like a native Parisian. I deceived him by a story that I was a Frenchman who had been beguiled into the expedition without knowing what it meant and explained that I cherished no feeling toward the rebels. It was decided that my life should be spared if I returned to Germany at once. The Frenchman gave me his word of honor and I was put on an outgoing steamer with the parting words that I would be shot if I remained on this side of the Atlantic. At Havana I escaped from the vessel, sold my ticket and sailed for Mexico, but afterwards abandoned the journey."

The baron passed through a number of exciting episodes after coming to Chicago, in the days before the fire, he being in the real estate business. Last summer he was in charge of Pullman's exhibit at the fair and at its close was installed as superintendent of the Hotel Florence.

AMENDMENTS.

WASHINGTON, Aug. 16.—The Ways and
Means Committee met today to consider
several amendments to the sariff bill. One of these, to restore alcohol used in the arts to the dutiable list, was adopted and subsequently passed by the House. Another was proposed by Representative Tarsney, making lead ore containing a pre-ponderance of silver free of duty. This was voted down by a party vote, the Republicans present overcoming the five Democrats. Mr. Tarsney will try again tomor-

row, when another meeting will be held. The Republican steering committee de-sided today to support the motion to refer the four supplemental tariff bills to the Finance Committee and seek to amend in various ways, the principal amendment be-ing for the repeal of the tariff bill just passed. They count upon the votes of Senators Hill, Cafferey, Blanchard, Allen and Kyle. If the repeal amendment should fail, they would seek to substitute a bounty provision for the pending bill for free sugar, and would expect to secure these

Senators, except Hill.

They will also offer numerous other amendments in certain contingencies, including one for a duty on wool. They admit that the sugar bill should pass with an amendment providing either for a steel when increased annual of \$370,520; coal; \$43,718,598, and the duties on the distributions of \$43,718,598, and the duties on the distribution of \$370,520; coal; \$436,149, and barbed wire, for a steel when increased annual of \$370,520; coal; \$43,718,598, and the duties on the distribution of \$370,520; coal; \$43,718,598, and the duties on the distribution of \$370,520; coal; \$43,718,598, and the duties on the distribution of \$370,520; coal; \$43,718,598, and the duties on the distribution of \$370,520; coal; \$43,718,598, and the duties on the distribution of \$370,520; coal; \$43,718,598, and the duties on the distribution of \$370,520; coal; \$43,718,598, and the duties of \$370,520; coal; \$37

While the question has not been taken up formally by the Democratic steering committee, there is a general understand-ing that a majority of the Democratic ators have united upon Senator White for the place. Senator White is an advo-cate of the free coinage of silver, and probably will be opposed by Senators who do not agree with him on the subject. The proposed income tax will not be payable by the terms of the bill recently passed until "on or before July 1, 1895, which is the close of the fiscal year, and it is estimated by the Commissioner of Internal Revenue that by reason of the large stock on hand, the receipts from the tax on playing cards will not amount to more than \$1,000,000 during this year. The House probably would refuse to accept it and it most likely would fall in conference, but they claim the Senate, especially the Republican Senators, would not be responsible for that result.

There is a prospect that if the Republican members of the Finance Committee insist that the Democrats shall fill the vacancy on the committee before action is taken on the supplemental bills, itsign and prospective requirements. I isting and prospective requirements, I think it would not be safe to place all the articles enumerated in your letter, or even sugar alone, upon the free list without im posing a taxation upon other articles, or subjects sufficient to raise the annual revenue of about \$30,000,000. I have the honor to be very respectfully yours,

CHICAGO, Aug. 16.—The Southern Pa-

It is under-stood that the Canadian Pacific, Northern Pacific and Great Northern are agrees Pacific and Great Northern are agreeable to the resurrection of the association. The association can hardly be formed inside of three months, unless the other lines are willing to leave the Atchison and Union Pacific on the outsids, which is hardly probable.

The Soo line has announced an advance in second-class rates from St. Paul to Sas Francisco of \$5, both via Portland and Yi Victoria. The reason given for the vance is that the road is about to abandon its claim for differentials on this kind of business. Regular passenger rates will not be interfered with.

field, Kan.

The records lowered today are those for the one-mile novice, one-mile open, and the five-mile national championship. Lee Richardson of Chicago also went against the half-mile record for backward riding, and reduced it from 2:37 to 2:35. Richardson gave a fine exhibition of fancy riding. This mile novice was paced by Chaffin and Phillips, and the result was the fastest mile ever ridden in a novice race.

The first championship race was the half mile, twelve men starting. Sanger went clear of the bunch in the backstretch, but gave up in the straight. Bald, the winner, its from Buffalo.

The fourth event, the one-mile open, created the greatest enthusiasm of the day. Sanger took the lead at thetwo-thirds, and held it until 200 feet from the tape. Here Sanger, Titus, Brown and Bald were lapping each other. Sanger had the pole, or was close to it, and Titus, coming very fast, cut inside of him. Sanger's wheel was seen to webble for an instant, and Titus and Brown both finished ahead of him. Titus was disqualified for foul riding, and Brown was given first place, with Sanger irred to elbow Titus off the track. Titus's time was 2:10 3-5, which is the record for a scratch race, the preprious record being 2:11 3-5 by Sanger. Brown, the winner, is a Cleveland man. In the two-mile handleap, Barnett of Lincoln, Neb., who nandicap, Barnett of Lincoln, Neb., who had a handicap of 190 yards, passed the leader on the second mile and won by 200 feet. In this race Dodson fell in the fifth lap and McGuire and Ham-ilton went over him. None were seriously injured. In the five-mile championship, the time

In the five-mile championship, the time limit was set at 16 minutes. Seven men started. The pice was set by several racers alternately, and at the four-mile point (abanne took the lead. The spurt on the last lap was very hot; and at the finish five men worr closely bunched. Titus won, and beat the world's record for five mines in competition, making the distance in 12:19 1-5. The previous record was 22:27%, adap held by Titus. Murphy of Brooklyn was second, and Zeigler of California third. Summaries:

A THIRD-RATER.

Gould Had Better Return and Build a New Yacht.

RYDE (Isle of Wight,) Aug. 16.—(By Mantic Cable.) To the delight of the losts of yachtsmen here assembled, a fairly strong westerly breeze was blowing today, the third day of the regatta of the Royal Victoria Yacht Club. The chief race on the programme was the Town Cup, valued at £500, to be competed for by all yachts over forty-rating. Three yachts, the Vigilant, Britannia and Satan

The chief race on the programme was the Town Cup, valued at \$500, to be competed for by all yachts over forty-rating. Three grachts, the Vigliant, Britannia and Satanita, were entered.

The course today was that of the Royal Victoria Yacht (Rub, known as the "long course round the Nah." The Vigliant followed the Satanita by \$2s., and the Britanni py 2m. 9s. As the gun was fired to send the boats eastward on their course the Vigliant was pointing straight for the line. The Satanita and the Britannia, though nearest of the dine, were pointing southward, and, therefore, lost way in paving to the Line. The Satanita roused the line satisfies the Wigliant was pointing straight for the line. The Satanita, 10:00:09.

Although the Vigliant crossed the line tast, she had greater way on her, owing to the fact that she was not compelled to libe for the line, and she soon overhauled her opponents and took the lead, when they were about a quarter of a mile out. The Satanita, on the other hand, fell into third place, and people thought the American yacht was going to administer a second drubbing to the few Britishers.

All three yachts were carrying topalls, jibs and yib-topalls, and the force of the wind, to the delight of the spectators, sent them reeling over until their rails were partly submerged as they tore along, dashing the spray aside and leaving a churned streak of white water glistening behind them. As a result of yesterday's gale, a choppy sea was running through the Solent, but this only served to make things livelier, and to make the racers show their bottoms prettily, as they surged over the green rollers in grand style, to plunge superbly forward under the pressure of their chouds of snow-white canwas, like race horses straining svery nerve to outdo each other. The three yachts at first made toward the opposite abore, the Vigliant luffing up, in order to prevent the Britannia, which had the weather position, from getting took pluse between them. But while these duels in seamannihip were taking place, the Sata

colliged, owing to the Satanita's surge ahead, to point out to sea, ant's bandon the fuffing match. The Brit'ania then crossed under the Vigilant's ice, showing that the Yankee had sot the worst of it in the luffing duel.

Nearing the Nab the positions of the yachts were: Satanita first, Britannia second, and Vigilant third. Spianakers were spread to the breeze as the three yachts, with the wind, hauled slight'dy northward, ran for the 'Nab lights. From the Nab lights it was a reach west, wastward and northward to the next boat mark. The Vigilant drew out, after passing the spit, and, before two miles more had been covered, was over a quarter of a mile ahead. By this time the wind was freshening, and favered the Satanita, enabling that yacht to pull ahead, and she soon afterward appeared to be increasing the sap, which she had placed between herself and her competitors, and passing Ryde, opposite Cowes, Clark's yacht appeared to be about a mile ahead. As they crossed the line at the end of the first round, the Satanita's lead was 6m. 33s. on the Vigilant, and on the Britannia 6m. 48s.

At the Nab Light, on the second round, both the Britannia and Vigilant had closed upon the Satanita at the lights led the Britannia by 4m. 34s., and was 4m. 55s. ahead of the Vigilant. In the short run from the spit to opposite Ryde, both the Vigilant and Britannia pulled up on the leader, the first-named reducing the gap to 3m. 4s., while the Britannia was 4m. 48s. behind the Satanita. At the spit-mark boat, the Satanita had a lead of 6m. 38s. on the Britannia and 8m. 48s. on the Vigilant and sea and sea and the Vigilant by 7m. 11s., while the Britannia was 1m. 22s. ahead of the American yacht at the finish, all times being without counting time allowance.

SAN FRANCISCO, Aug. 16.—New and unexpected complications have arisen here in the Ezeta case. It became known to-day that warrants for the arrest of the refugees have been in San Francisco since Tuesday, but that owing to dissensions among local representatives of the govern-ment of San Salvador the documents have not been served. The gunboat Benning-ton continues, meantime, to cruise off, the heads, beyond the three-mile limit, while the lawyers who are here representing the San Salvadoran government are endeavor-ing to patch up the affgirs of the local

San Salvadoran government are endeavoring to patch up the affairs of the local consulate. The trouble here is due to the fact that the consulship is held by a man who owes his appointment to ex-President Ezeta, and who is still loyal to the deposed President, though the new government has recognized him as its official.

Carlos Yrigoyen is the local Consul. More than three weeks ago he left San Francisco suddenly and went to New York, and it is said now that his purpose was to meet ex-President Ezeta when he should arrive there. Soon afterward Vice-Consul Kelly departed for Mexico, leaving the affairs of San Salvador to be looked after by Mariono Roma. a citizen who is an ex-Consul of San Salvador to Roma. Ike Consul Yrigoyen and Vice-Consul Kelly, is friendly to the Ezetas and will do nothing to jeopardize their cause. As a result, the warrants of arrest are lying in Consul Yrigoyen's office and there is no one who will officially place them in the hands of the United States Marshal.

Consul Yrigoyen is speeding back to San Francisco as fast as steam will carry him, but those in a position to know declare that he can be depended upon to do nothing which will injure his friend Ezeta. It is probable, however, that Yrigoyen will be deposed. It is said his successor is now en route by steamer from Salvador. L. G. Gonzales, son of an influential commission merchant, is also mentioned as a possible successor.

ORDERS FROM WASHINGTON.

WASHINGTON, Aug. 16.—The department has finally decided that the Salvadoran refugees now on the Bennington lying beyond the three-mile limit off San Francisco shall have; a full and fair opportunity to come into court and show if they can that they are not subject to extradition. Orders have been issued to Commander Thomas of the Bennington, which were communicated to him by tugboat, to keep his vessel beyond the three-mile limit until extradition papers arrive at San Francisco.

These orders were handed to the San Salvadoran Minister at 5 o'clock last Sunday evening, and should reach San Francisco tonight or tomorrow morning. When they arrive the papers will be placed in the hands of the United States Marshal. The Bennington will steam to the harbor and the refugees will be taken into custody and produced before the United States Court. They are Gen. Ezeta, late Vice-President of San Salvador; Gen. Catachein, Gen. Kolones and Lieut.-Col. Clentuegos Wall of Esota's staff. Before the court they will be represented by Gonzales de Nuesado and Hom Horatio Reubens of New York as counsel.

While this counsel may invoke a writ of habeas corpus, it will be unnecessary, as they will have their opportunity when the refugees are brought before the court in pursuance to extradition is sought on political grounds, and that the offense charged against them are not criminal in character.

THE RIGHT OF ASYLUM. WASHINGTON, Aug. 16.—In the quiet-est manner that official methods will per-mit the Navy Department has amended the

ship Ranger received his stinging repri-mand.

The new regulation appears to com-pletely justify that unfortunate officer in his refusal to protect Barrundia, for if its construction as to the proper duty of a naval commander is correct and in conformity with international law, then he could not have offered to take the gen-eral from a merchant vessel.

The department has been induced beyond question to make this new regulation re-stricting the granting of asylum by the

question to make this new regulation restricting the granting of asylum by the great trouble it as been put to by the harboring of the Salvadoran refugees on the Bennington. The old regulation, No. 287, reads as follows:

"First—in reference to the granting of asylum in the territorial waters of a foreign State, the ships of the United States shall not be made a refuge for criminals.

"Second—in the case of persons other than criminals, they shall be afforded shelter wherever it may be needed, to United States citizens first of all, and to others, including political refugees, as the claims of humanity may require, and service upon which the ships are engaged will permit."

upon which the ships are ingaged will permit."

The new regulation is much more restrictive, reading as follows:

"The right of asylum for political refugees has no foundation in international law. In countries, however, where frequent insurrections occur and the constant instability of government exists, local usage sanctions the granting of asylum, but even in the waters of such countries, officers should refuse all application for asylum except when required by those interests of humanity in extreme or exceptional cases, such as the pursuit of a refugee by a mob. "Officers must not directly or indirectly invite refugees to accept asylum." cept asylum.

WRITS AND WARRANTS. WASHINGTON, Aug. 16 .-- The Navy De-

WASHINGTON, Aug. 16.—The Navy Department has been informed by telegraph by Capt. Howison, commander of the Mare Island Navy-yard, that Lieut. Stoney boarded the U.S. S. Bennington last evening and gave Capt. Thomas, the commander of the vessel, his instructions from the Navy Department relative to the disposition of the Salvadoran refugees aboard his ship. The officials of the department will not say what these instructions are, nor will they afford any further information on the subject.

what these instructions are, nor will they afford any further information on the subject.

Without doubt, however, the Bennington will remain beyond the three-millimit and outside of the jurisdiction of the United States courts until the extradition warrants reach San Francisco. As it was placed in the hands of Salvadoran representatives at 5 o'clock last Saturday it should reach its destination tonight. What will happen after the arrival of the document cannot be learned. The service of the extradition papers on Excta would be a bar itself to habeas corpus proceedings in the fact that extradition warrants may be served on Exeta on ship beard inside or outside of the three-rule limit, while a writ of habeas corpus cannot be service if Capt. Thomas refuses to permit the officers to board his ship.

Although the department officials refuse to discuss the subject, there is reason to believe that they have instructed Capt. Thomas to prevent any one save the Salvadoran concernment supresentatives and navy people from boarding the Bennington

and thus prevent the service of a writ on Essta's behalf. In case this policy is pursued to its logical conclusion, Essta would be arrested on the high each turned over to the Salvadoran government, placed on unother vessel unit sent back to Salvador without even entering the judicial limits of the United States and without giving the unfortunists returned to producing after all of going before the counts and showing the insufficiency of the charges.

"Dr. Filben said: 'He came to this city from England with letters of introduction to Bishop Nichols from the Bishop of Liverpool and others. One of these letters intimated that Rogers was not quite right mentally. After being here a short time, Rev. Rogers left, the Episcopalians and joined the Baptists, then he went on to the Presbyterians and finally became a Methodist, receiving his appointment to the Methodist Mission in Fruitvale at the hands of his clerical counsel in this case, Rev. Dr. Carroll.

"Filben further stated, and in what he said Detective Thompson concurred, that Rogers boasted that he had put others in the same plight as Dr. Hirst, and he had an English lord 'rotting in jail."

"The youth, George Willard, signed a statement accusing Dr. Hirst of unmentionable crimes. Edmund Bidwell is a rather sullen youth. He is said to be Rogers's chief witness, though he mumbled yesterday, when the assertion was made: "There's a dozen more boys." He is credited with having made affidavit to certain charges in which he was a party to the crime. He was for some months a typewriter in Dr. Hirst's employ.

SAN FRANCISCO, Aug. 16.—The Home Mutual Benefit Life Association of America has had its license revoked by Insurance Commissioner Higgins. The Home Benefit is a local corporation doing business on the assessment plan. Many of its policy-holders have withdrawn, owing to policy-holders have withdrawn, owing the weighting course and questionable. its vaciliating course and questionable reputation, while large numbers of its beneficiaries have either received nothing

beneficiaries have either received nothing or only a portion of their claims.

Higgins reports as follows: "With a decreasing membership it is to me very plain that the company cannot meet its obligations. There are death losses of the Home Benefit prior to July 14, 1898, to be met. When this contract was made these amounted to about \$50,000, and there was due and unpaid other liabilities of about \$10,000. The assessments collected at the office here have been applied toward the liquidation of these accounts, but there yet remain due and unpaid about \$50,000 of death claims, which must be met by assessment in addition to those before set forth. As almost one-third of the entire membership of the company is reported by it to be in California, and as I am clearly of the opinion that the company cannot and will not receive obligations in full, the action I have taken in this matter seems to me to be just and proper."

Strikers Testify as to the Late Trouble.

The Secretary of the A. R. U. Favors Making Arbitration Compulsory.

The Spring Valley, Ill., Coal Strike Off-The Lake Shore Abandons a Dangerous Station-Peace Among Butchers.

CHICAGO, Aug. 16.—The first witness called before the government Strike Commission today was W. H. Lovejoy, a Rock Island Railroad employee from La Salle, Ill. Lovejoy declared the men went out at that point because he was unjustly dis-

charged.

Secretary Keliher of the A.R.U. succeeded Lovejoy on the stand. He entered into a detailed statement of the troubles leading up to the strike and was questioned closely regarding the convention at

into a detailed statement of the troubles leading up to the strike and was questioned closely regarding the convention at which the boycott was declared.

Secretary Keliher was asked for his views as to the best method of preventing strikes. He said he believed government ownership would solve the problem. "Next to that," he continued, "I think compulsory arbitration would answer."

"How would, you force the railroads to abide by the arbitrators' decision?" asked Commissioner Wright.

"By law," promptly replied the witness."

"Let the law be such that, in case of trouble with its employees the railroad will be compelled to submit the matter to arbitration. Then let it be understood that, if the railroad will not accept the terms upon which the arbitrators decide, the company will be compelled to go out of the business. In other words, the railroads should be compelled to abide by the decision, and as to the employees, if they are not suited by the decision, let them leave the employ of the company."

B. B. Ray of Rock Island, Hi., was next called. He stated that the strike at Rock Island was caused partially because of the treatment the men had received at the hands of the Rock Island Company.

"I had gone West to visit my relatives," he said, "and when I returned I was told by the Rock Island officials that I had been discharged. I asked for a reason, and was told that it was because I was a member of the A.R.U. General Superintendent Dunlap said I would be blacklisted, and never given work on his or any other road. I was not a member of the A.R.U. at the time of my discharge, but have since joined that union."

Ray agreed with Keither that government ownership of railroads would pervent strikes. He favored a law, he said, compelling railroads to give discharged employees a document setting forth the reasons for their discharge. At the conclusion of his examination a recess was taken.

Chairman Heathcote, of the Pullman Strike Committee, was on the witness-stand during the afternoon session. He showed a table of the Pullman Company's wages, and claimed that wages had been cut 80 per cent. In the last two years. Heathcote also exhibited what he claims was a blacklist issued by the Pullman officials, requesting other companies to refuse to employ the men whose names appeared thereon.

There is no doubt that George M. Pullman, vioc-Fresident Wickes, General Managers Egan, St. John and other corporation officers will be called up, but whether they will teatify or not is another matter.

TWO THOUSAND DISCHARGED.

TWO THOUSAND DISCHARGED.

OMAHA, Aug. 16.—Over two thousand men have been formally discharged from the Union Pacific, as the result of the great strike, and others are being placed each day. Twenty engineers and firemen are included in the list. Some of the engineers and firemen, particularly on the west end, were with the company for twenty years and upward. In most cases the men do not blame the company for the action taken, saying that they were misled by the A.R.U., and that they made a mistake in going out at all. Notwithstanding, however, the feeling that ran riot along the Wyoming and Idaho divisions, only two engines were disabled. In some cases the phaces of the strikers have been filled with new men, but so stagnant is business that some of the places will remain unfilled until business warrants an increase in the pay-roll. Every man who went out on a strike is known at headquarters, and the black-list book has grown greatly since the reports have commenced to come in from division superintendents as to the number of men discharged, and the causes leading up to their retirement from the service. Some little trouble is anticipated by the management when it cames to displacing the old employees from the company's houses along the line, to make way for new men who have families, but the company is determined to give their new employees the privileges enjoyed by the strikers.

Johnson, from North Spitsbergen. All the members of the party are wall. Discussing the failure of his expedition to reach the pole Wellman said to a representative of the Associated Press:

"After the loss of the Ragnavald-Jarl and the consequent breaking up of my line of retreat, I was compelled to modify my plans. for the summer's work and make sure to be able to return to the coast of Spitzbergen sarlier than I intended, though the expedition reached within a few miles of the Sist parallel on May 13, eleven days from Tromsoc. The season had then changed to the other extreme. North of the Seven Islands, situated at the extreme north of Spitzbergen, as far as we could see were masses of heavy unbroken ice, which appeared absolutely impassable.

"The expedition then turned its face east along the Northeast land, and then the northeast gales broke up the lee which had promised to afford some easy traveling. The scientific men of the parry were making interesting observations in geology affilmatural history. Prof. Oyen French of the Coast Geodetic Survey of Washington accurately surveyed a large part of the coast. Among the points added to the map by virtue of the discoveries made during this survey are Capes Gresham, Whitney, Armour and Scott and Walsh Island. On July 1, with the seven men and an aluminum boat I started on my way over the pack-ice, but was compelled, after several days of frightful struggling with the ice, to give up the attempt. On July 4 I started to return to Walden Island, crossing Dove Bay. We were all compelled for hours to wade through water waist high. The screwing of the pack-ice had the time in water and half the time on the ice.

A MANLY UTTERANCE.

The Times has received the following letter: . LOS ANGELES, Aug. 16, 1894.—(To the

Editor of The Times:) Permit me through your columns to say a few words to the general public. Yesterday Ro

restorday Robert S. Woodside carried at my office and introduced to me C. L. Smart, representing the "Council of Labor." Together they advised me to withdraw my political announcement from the columns of The Times, Mr. Woodside saying that if I did not need the advertise-ment it would be well to take it out, as, ment it would be well to make at our, as, if the went to the convention, he would be sent there by the laboring people. Mr. Smart said that he did not come to make threats, break any law, or dictate, but simply asked and advised that I take out

ny amonuncement.

I told the gentlemen that I had placed the announcement there and had nothing further to say on the subject. They then left, asking me to think the matter over. A few hours later I received through the

mail the following fetter:

"HAILL OF LOS ANGELES COUNTY COUNCIL OF LABOR, NO. 175 NORTH SPRING STREET, LOS ANGELES (Cal.,) Aug. 15, 1894.

"H. R. Hanna, No. 101 South Broadway: Your attention is directed to the following resolutions, passed unanimously by this organization at 4ts regular meeting on March 21:

March 21:
"'Whereas, the Lds Angeles Times has always malignantly and without cause attacked labor, and used its columns for the purpose of villifying the industrial clauses, and more especially trades unions;

"Whereas, we believe we are reasonably and fairly justified in looking with distrust upon the promises of any candidate who financially assists the Los Angeles Times in its warfare on organized labor; therefore be it "Resolved, that we, as laboring men, will use all the means in our power to defeat the nomination and election of any one using the columns of The Times for the purpose of placing his name before the people as a candidate for public office, regardless to what political party he may belong."

long."

"You are also notified that The Times has a non-union job office, and the giving of any job or campagin printing to it will be considered the same as using the columns of the paper. Respectfully, "LOS ANGELES COUNTY COUNCIL OF LABOR."

Comment on this seems almost superfluous. I was born in Ohio and came t California in 1860. That a free American citizen should be judged at the polls on the grounds above stated, is, to eay the very peculiar. I am not to be judge as a man, or as an American citizen, bu must fight the battle of life for a few so-called "leaders." That there is a labor-ing class is not true. "The laborer is worthy of his hire," whether he works with his hands or his brains, and the classification is in the minds of the dema gogues only, who use it for the futherano of their ends. Our Constitution says, in effect, that every man has a right to Now, what constitutes an American cit-izen? Is it one who votes as he believes to be right, or at the dictation of Messrs. Smant and Woodside and the Council of American citizen cannot allow himself to desire to pose as leaders, draw big sal-aries, and deliver the goods to whom they

unreasonable threat These miscreants of "walking dele gates," who are unworthy to be called American citizens, are still keeping up their pretense of a fight-which they know that they have long since lost-against The Times, and over the shoulders of The Times are striking at reputable business and professional men of Los Angeles, whose shoes they are not worthy to clean. The damage which they, in their impotent rage, are able to do to this journal is insignificant, and does not trouble us more than the yelping of a pack of common dogs, which they imitate. The Times is too firmly established in the esteem of the people of South-ern California to be injured by the futile malice of these defeated labor demagogues, who have for years kept up the miserable pretense of a boycott in order that they may continue to draw contributions from their deluded followers. At the same time, citizens have a right to resent such insolent annoyances and to claim protection from efforts to interfere with them in the exercise of their legitimate business. It has come to a pretty pass in this free country when re-putable citizens have to submit to in-sults and threats from self-appointed

make no demand that any candidate may do just as he pleases in that regard. His doing so will not, in itself, obtain him the support of The Times; nor will his abstention cost him that support, provided he is a worthy man. If, however, we find that any Republican aspirant for office shall have shaped his political course by a desire to curry favor with these emissarles from out the camps of our political enemies, who go around threatening honest men, then we intend to publish the facts broadcast. Or if we discover that any Republican aspirant refrains, through Populist or boycotters' threats, from doing any other thing that a good citizen and Republican should of right do, then we will surely denounce that man as unworthy to be intrusted with any office in the gift of the people. A man who is such a coward is not only unworthy to hold an office, but to have a vote. Such a man would, at a party. A Republican candidate who would listen to threats coming out of the camp of his political enemies, not one of whom will vote for him under any circumstances, is undeserving of Republican nomination and support.

Candidates who may have demagogues would do well to pause and reflect whether they are prepared to sacrifice the respect and support of all independent and patri-

THE ONLY WAY TO HELP THE POOR

The problem of rendering help to the unemployed, without doing more harm than good, is as serious a problem as any that contemporaneous civilization has to deal with. Out of nundreds of methods that have been proposed and tried there is the smallest possible percentage that have been successful. There are no more onscientions or well-informed students of this problem than the Rev. Dr. Lyman Abbott and Mrs. Josephine Shaw Lowell of New York, both of whom out of their long study and their wide experience write instrucmarkable that both those writers, each treating the subject independently of the other, note the fact that the best solution of the problem of poverty, perhaps, after all, the only solution, is through the personal work of well-to-do people directed with discretion toward the personal help of particular families or individuals. If every person in comfortable circumstances were to make it a part of his duty to give proper aid and personal encouragement to some other person less fortunately situated, the vhole problem of poverty would disappear-except, of course, that portion of it which nothing can cure the portion that has its origin in a helpless breakdown of character, or

of health, or both. It is doubtful whether any man on either side of the Atlantic knows more directly and personally concerning the problem of the poor than the Rev. Samuel Barnett, the founder of Toynbee Hall; and Mr. Barnett thus loses a recent article in the Fortnightly Review, on "The Unem-"If tomorrow every one ployed:" who cares for the poor would become the friend of one poor person-forsak ing all others-there would next week be no insoluble problem of the unemployed, and London would be within measurable distance of becoming a city of happy homes." Rev. Abbott is not so sanguine as Mr. Barnett. He thinks that there are other social and industrial remedies to be applied; but this personal friendship of the well-to-do for the poor is fundamental. Out of it all other remedies would grow; without it all other remedies will be in vain. A basket of coal accompanied by a grip of the hand will carry more warmth than two baskets of coal sent by an impersonal ticket.

PADRONE STAVERY

While unrestricted immigration in general way is a bad thing to the country, there are certain special phases of this immigration which are particularly repulsive to the spirit of American laws and society and to which a stop should certainly be put without any unnecessary delay. The American Cultivator very properly remarks that one of the worst results of the unrestricted immigration which now prevails to this country is that so large a proportion of the newcomers are unfit to care for themselves. The early settlers of the North American colonies were thoroughly independent and though poor, never subjected themselves to a master. Now the larger part of the Chinese who come across the Pacific are prac tically slaves to the Six Companies. We are finding out recently that the same thing is true of a considerable part of the Italian immigrants. All snow that most of them are miserably poor when they arrive. Their unfamiliarity with the language conpels them to seek help of the padrones or bankers of their own nation, who use this power to keep them in a condition of practical slavery.

When Italian laborers come to this ountry they are told that they can only get work through the padrone. He makes the bargains and pays him self liberally out of what the work-man earns. If the laborer gets \$1.50 per day, the padrone takes out 25 cents. If the laborer gets a dollar a day the rebate is 20 cents. The padrones put such obstacles in the way that the man who does the work is mable to make his own bargains As to the question of political as parameter of ten controls 200 or pirants, in their relation to The 500 men it will easily be seen that the Times, our position is very plain. extorted from their helpless victims The Italian Embassador at Wash ington, Baron Fava, has secured full information on this subject, and after consultation with him, Senator Chandler of New Hampshire has introduced a resolution proposing a searching inquiry into this evil with the purpose of stamping it out. The Italian government is interested in this matter and its co-operation will be important because, doubtless the evil begins by assisted emigration of those who could not otherwise get the money to pay their passage.

THE TARIFF AND BEET SUGAR

While it is probably true that the influence of the Sugar Trust had something to do with the framing of the new tariff, we of California can afford to be satisfied that a duty has been retained on sugar, and to hope that the free-sugar bill which has been sent to the Senate, will fail to pass. The duty of 40 per cent., while not large, is sufficient to enable beetsugar to be made at a good prout in this section, where the percentage of saccharine matter in the beets has been such as to excite astonishment in the minds of European experts. As soon as it shall be definitely settled that the duty on sugar is to be retained, work will no doubt commence on the new factory at Anaheim. There are several other enterprises of this sort in Southern California which are only awaiting definite news from Washington: With about a dozen beet-sugar factories like that of Chino. distributing each \$400,000 a year among our people, not to speak of the affiliated industries that go with the manufacture of beet-sugar, Southern California would take a big dump to the front, and there would be a rus subdivide some of our large ranches for it would not pay to grow barley on land that can be made to yield a clear profit of from \$60 to \$80 per care, year in and year out.

AT THE PLAYHOUSES.

LOS ANGELES THEATER.-After Edward Harrigan's engagement has closed and he and his company have taken their departure, never probably to return to this city, the play-going public of Los Angeles will probably wake up to the fact that it has missed seeing some of the best bits of character playing ever presented on the local stage. For Mr. Harrigan's audiences, so far, have been as beggarly in size as

local stage. For Mr. Harrigan's audiences, so far, have been as beggarly in size as they have been large and appreciation, and it is a reflection on the public of the southern metropolis that both conditions have not been equal.

"Old Lavender' has strong elements of melodrama and while the incidents are hackneyed and stagy as only melodrama usually is, the plot is well and consistently worked out and the interest is well suatained.

But as in all the other creations of this playright-actor, the play is not the thing, it is the player himself, and the strong characters he has given life and vitality that stir the admiration and win the observer's applause. The bright particular character of the place presented at the Los Angeles Theater last aight is, of course, the title part as assumed by Mr. Harrigan. It is a type that is common in every great city, that of the high-minded, white-hearted, honest gentleman, full of kindliness, generosity and manliness, who, through the demon of drink, becomes an habitue of the slums and a companion of outcasts and wharf-rats. There is not a stroke in the picture omitted, as Mr. Harrigan paints it, but it is rich with the color of genius iaid on with a master hand. We ree the easy-going convival jolly dog of a bank clerk in his brother's bank getting into bad company and, as naturally follows into bad habits. We see him, no matter what the surroundings, still a gentleman, sill the honest royal fellow sharing his last dime with the unfortunate about him and when restored to the place in his brother's good opinion still the same plain, good-natured and high-spirited gentleman. when restored to the place in his brother's good opinion still the same plain, good-natured and high-spirited gentleman.

The company deserves praise for its clever support last night, and while the audience was small, the royal reception accorded the performers and particularly the star, must have made something of an amend for the emptiness of the chairs.

"Old Lavender" will be repeated at the matinee on Saturday, because of the fine reception accorded it last evening. Tonight "A Leather Patch.'

COLUMBUS, Aug. 16.—The State Populist Convention was called to order today in a grove three miles west of the city. Four wagon trains from the northern, southern, eastern and western parts of the State reached the camp, and the at-tendance was not less than fifteen hundred, the largest gathering ever held by the party in Ohio. of the Commonweal army, was the lion of the occasion.

After a temporary organization was effected by the election of Hugh Cavanaugh as chairman and the appointing of the usual committees, Coxey spoke. He condemned the present financial system of the country and attributed the condition of the country to contraction of the currency and the repeal of the silver-purchasing clause. His road bills and the isue of \$500,000,000 legal tender were presented as the safeguards against depression. The Committee on Resolutions was authorized to confer with the new labor party on the subject of coalition.

At the afternoon session Hor. John L. Selb of Seneca was made permanent chairman and Thomas Butterworth of Cincinnati was made permanent secretary. The Committee on Resolutions reported in favor of accepting the platform of John Mc-Bride's labor convention, with additional planks in favor of liberal pensions to all honorably discharged, disabled soldiers, and indorsing Coxey's good roads and reminterest bond schemes. The report of the committee was accepted and it was voted unanimously to seat the labor deignates. Tonight there was a parade and massmeeting at the Capitol, at which Coxey told his experiences in jail at Washington.

It omitted, however, several inscriptions which should have borne testimony, enacted by said Democrats on the day of the election, viz., that in Lowndes county, with a registration list of 2500, and with an actual poll of less than fifteen hundred, they have sent up a false majority for W. C. Oates of over four hundred, based on perjured elections. If the United States Senate will appoint a committee, as asked for by Senator Chundler's resolution, we will not only certify the above charges, but will furnish conclusive evidence of Capt. DALLAS (Tex.,) Aug. 16.—At 1 o'clock his morning the Cleveland Democracy, seaded by George Clark, jumped into the saddle in Texas and rode over the free-silver-16-to-1-ratio, by a vote of 461 to 415. The platform presented by the minority was adopted. When the convention assembled at 1:30 o'clock today, Chairman Hambley reed a letter from John H. Regan, withdrawing from the race for Governor, declaring he he made his canvass on the issue of free silver at a ratio of 16 to 1, and that he would not accept a nomination on the platform adopted, if given him. He said, however, he would support the ticket that should be nominated. The convention proceeded to the nominations for Governor. At the beginning of the first ballot, John D. McCall withdrew, leaving the race between Culberson and Lanham. Regan's forces were largely thrown to Culberson, and when the latter had received over five hundred votes, Lanham's name was withdrawn, and Culberson was nominated by acclamation.

George T. Lester of Corsicana was nominated for Lieutenant-Governor, and the convention them took a recess till 8 o'clock this evening.

Upon reassembking at 8 p.m., the convention at once proceeded to fill out the balance of the State ticket. William Cockran of Cleburne was nominated for Attorney-General on the first ballot. The convention is balloting on a candidate for Secretary of State at midnight.

BOISE (Idaho,) Aug. 16.—The Democratic State Convention got down to work today and nominated a ticket. The Ballentine-Stevenson fight resulted in the nomination of Stevenson for Governor and Ballentine was nominated for Congress. Three places were not filled, Secretary of State, Attorney-General and Superintendent of Public Instruction. The nominees are as follows: For Governor, E. A. Stevenson; Congress, James M. Ballantine; Lieutenant-Governor, John B. Thatcher; Trassurer, James H. Bush; Auditor, James Stoddard; Supreme Judge, C. E. Elder.

The platform gives a qualified indorsement of Clayeland; denounces the conservance of silver at a ratin of 16 to 1; condemns Republican legislation of the past thirty years; pledges the

party to various State legislations and re-forms.

The Democratic ticket was completed to-night by the selection of J. R. Hail for Secretary of State; William T. Reaves for Attorney-General, and J. W. Faris for Su-perintendent of Public Instruction.

TRADE REVIVAL

Wholesale Merchants of St. Louis in a Rush.

Associated Press Leased-wire Service.

ST. LOUIS, Aug. 16.—The wholesale dry goods merchants expect a still further revival of trade, now that the statesmen at Washington have agreed upon the tariff bill. In anticipation of the passage of some sort of a tariff bill, dry goods that had been lying in bond were brought into condition to ship on short notice ten days ago. Wholesale dry goods and wholesale hardware merchants of this city have had thousands of dollars' worth of foreign goods lying in bond for several months, while waiting to see what the outcome of the tariff legislation would be. Now that the tariff question, for the present, is to be settled, all the goods are being withdrawn from bond as quickly as possible and are to be thrown on the market.

Wholesale merchants have figured that the passage of a tariff bill lowering the duties will fully compensate them for the loss of time and for the interest on their money, the bill allowing their imported goods to remain in bond. The result is that they only withdrew from bond just the amount of goods that they absolutely needed for months past, but now there is a rush to get their goods out of bond and the customs officials of St. Louis are exceedingly busy in meeting these demands. At Collector Dalton's office it was learned that in the last three days there has been a scramble to get the goods out of bond as soon as possible. Many foreign consignments are coming in also and instead of being appraised at the port, where they are landed, they are shipped on to St. Louis and appraised here. Fifteen carloads of imported dry goods and other goods arrived here yesterday alone, which were consigned to St. Louis wholesale men. It is roughly estimated that the duties under the McKinley law on the large amount of foreign goods that has been lying in bond here would not be less than \$300,000, but duties on these goods will be paid uncer the new tariff bill, when it becomes a law, and it is estimated that a saving of at least \$100,000 will thereby be made by St. Loui

has sent a notable statement to the special committee of the United States Senate, investigating the industrial depression and the remedy. He says:

"One or two more parics will find this country in the condition of Rome and other extinct republics, when they went down. There was no necessity whatever for issuing a government bond, and every one issued, whatever the purpose may have been, resulted in the robbing of the people to the full extent of the issue. Why should we be taxed from \$50,000,000 to \$150,000,000 a year for thirty years on bonds in order to maintain a banking system which was conceived in sin, born

Why should we be taxed from \$50,000,000 or to \$150,000,000 a year for thirty years on bonds in order to maintain a banking system which was conceived in sin, born in injusty and nurtured in conspiracy and ripened into treason?

"Why should we be compelled to use a demonetized bill and a demonetized treasury note, when the government has the power to issue full legal tender money? With an honest issue of money, the people could not be plundered of a billion or more dollars each year, and there would be no occasion to pay those who, conspired to have this nation the depository of their surplus money four or five millions a year for taking care of their imaginary gold reserve.

"The bond of mations and the issue of demonetization currency are recent inventions, but many nations have of late years fallen a prey to this new device. They must, in consequence, repudiate or return to barbarism. The creditors who are confiscating the property of the nation cry inflation, when the oppressed debtor asks for honest money, with free coinage of silver and the demonstization of the paper moneys. Inflation, indeed, with 25-cent wheat, 5-cent cotton, 2-cent beef, 50 cents for a day's labor! Our money will be 'stable' when the American farmer, planter and laborer are reduced to the condition of the people of India and the other serfs of other countries under the financial domination of England.

"It is sincerely to be hoped Congress is in earnest in its efforts to ascertain the cause of the present disturbed condition, and is ready and willing to apply the proper measures for relief, and that no further attempts will be made to deceive the people by distracting their attention from the real issues, as has been done by discussions of the bloody shirt, the seal question, the Canadian railways and canals, the tariff and the proscription against one religious denomination, known as the A.P.A. movement, but that laws shall be enacted which will bring prosperity to all the people, instead of a very few.

"It would seem that Congress h

will be their servants and not their masters.

"With that day will come prosperisy through the introduction into our statutes of justice to all classes, which may be partially and briefly summarized as follows: The monetization of silver at 15½ to J; all money issued by the government direct; all demonetized money to be called in and full legal tender money issued in lieu thereof; one money for the bondholder, creditor, debtor, office-holder, importer and banker; the establishment of postal savings banks; the adoption of the initiative and referendum. That latter would prove fatal to that political evil, the lobbyist. Robbery would be an unsafe investment when the people instead of depending on a corrupt legislative body have the decisive ballot.

The power to coin money and regulate

corrupt legislative body have the decisive ballot.

The power to coin money and regulate the value thereof to be taken from Congress by a constitutional amendment. History has demonstrated that it is unsafe to entrust a legislative body with the power to paperize and enslave the people. In like manner the power to enact tariff legislation, which, taken from Congress, a commissioner appointed free from all influences to draft revenue laws, which, when finally adopted by the voice of the people, can only be modified, changed or repealed in a given period of time, and then only by a direct vote of the people, thus allowing the business interests of the country to adjust themselves to its provisions."

FIELD OF POLITICS.

Lindley's Ruse Was Not Very Effective.

An Attempt to Deceive the Public That Has Proved a Flat Failure.

Republican Voters Indorse the Action Taken by the Seventh Ward-Democrats Moving Very Slowly.

Hervey Lindley has gone off on a trip for his health, and his faithful healthmen are telling people in strict confidence of course, that his act shows plainly that he is out of politics, and will take no active part in the coming campaign. The rusedges not even possess the merit of being ingenious, for among politicians it is well known that Lindley has done some very tall scheming this year, and his departure from the city at this time only indicates that he has in a measure completed his plans, and now feels safe in leaving the remainder of the work to be performed by his lieutemants. Even the names of the his plans, and now feels safe in leaving the remainder of the work to be performed by his lieutenants. Even the names of the members of his managing committee are given, with the proportions of the task assigned to each. If there was an opposing spirit in existence two years ago against the Lindley element, that spirit is doubly marked now. Many of the combine leader's former supporters are arrayed against their ex-chief because of personal differences, and they propose to be very useful in thwarting the man's line of operations, being armed with a thorough knowledge of his methods. There is scarcely a Republican club in the city that has not already declared itself in the fight against Lindley. Even the Seventh Ward, which in time gone by was the birth-place of plots and intrigues against the uncompromised ballot and a fair fight, has in no uncertain terms declared itself as not wearing the collar of any boss and as being antagonistic to ring practices and ready-made tickets.

cortain terms declared itself as not wearing the collar of any boss and as being antegonistic to ring practices and ready-made sickets.

The names of all the candidates who are on the Lindley slate are well known, and the better class of Republicans ammounce that the public will be informed upon the matter when the time for nominations arrives.

And they still continue to cohe the assertion that the Lindley choice will be slaughtered in the county convention.

Ever since the publication of what purported to be a list of names of candidates "supposed" to be on the slate, the persons mamed have been kept busy denying that they are in any way connected with the combination. The names given were those of candidates who are known to have opposed the Webber-Lindley gang at every turn, and who have publicly proclaimed their hostility to slate methods repeatedly. It was presumed that the article in question was prepared in the interest of the ring by Webber, in order to divert public attention from the real slate.

The decided stand taken by the Seventh Ward Republican Club against the ring and boss rule Wednesday evening was discussed among politicians yesterday in every querter, and commented on very favorably. During the coming week the resolutions adopted by the Seventh Ward Republicans will be sent to all the recently-organized clubs for indorsement.

Moving Slowly.

Moving Slowly. DEMOCRATS HARDLY KNOW WHERE

The San Francisco Call on Tuesday omments as follows upon political affairs of the State:

of the State:

"The wisdom of the plan of club organisation, as laid down by the State committee, is questioned by many Republicans. They say that the bitterness engendered at the last primary will be stirred up again by the giving of the reins into the hands of one man in each district. In many instances there are factions in the districts, and it is said that the side which has not been favored will rebel and start anew the discords of a lew months ago.

and start anew the discords of a few months ago.

"The plan has also given rise to the supposition that now that each district is to have a central district club the primary for the election of delegates to the municipal convention will be replaced by elections by the clubs. Secretary Burns of the State Central Committee said yesterday that there was no ground for that assumption. The primary will take place, as originally intended.

"Some of the district workers are growling because the chairman of the Executive Committee has appointed members of the State Central Committee to organize the clubs, instead of leaving the matter in the hands of county committeemen. Up at headquarters, however, these minor kicks have no great weight, as the leaders think that the small clouds will quickly blow over, and that in a few weeks the party craft will be sailing smoothly.

"The Democratic State Convention, which will begin to lead the site."

weeks the party craft will be sailing smoothly.

"The Democratic State Convention, which will begin its labors in this city on Tuesday, the Zist inst., is so close at hand that the politicians of that faith will have to move faster than they have been moving, if they would properly prepare for it. As yet, practically nothing has been done, except to engage the Baldwin Theater as a meeting place. As compared with the Republican State organization, the Democratic State Committee has thus far shown very little life. In fact, it has been invisible in this city. Max Popper is the chairman, and he has been entirely occupied with municipal affairs. "Nobody seems to have heard from the interior, and, so far as can be learned, the delegates from the various counties will all be unknown quantities when they get here. One week before the convening of the body, the Democrats seem to be wholly at sea as to who will be presented to the convention for nomination for Governor, to say nothing of the question of who will be actually nominated. A few names have been mentioned, but so little accurate information is at hand concerning the intentions of the men thus discussed that it is impossible to predict results."

A BARN BURNED. Quite a Fire at Vine and Third

About 9:15 o'clock last evening a fire broke out in a large barn, used by the National Ice Company as a stable for their horses, and located on Vine street, near First. There was a large quantity of hay and grain in the building, and the fire spread rapidly from the north end of the structure, where it first broke out, until the whole building was in flames.

end of the structure, where it first broke out, until the whole building was in flames.

Watchman Fred Jones, employed by the loc company to watch the building at might, was the first to notice the flames, and prompity turned in an alarm from box No. 62. Then he and a man named Aleck Wilson, rushed into the burning building and cut loose the twenty-two horses which were stabled there, and managed to get them all out, as well as all the wagons, to the number of nine or ten.

The fire department responded promptly to the alarm, and were soon fighting the flames with half a dozen streams of water. An immense crowd was attracted by the lurid glare and the dense cloud of smoke, which rolled upward, so that the fire laddies were obliged to turn the water on them occasionally, as they surged dangerously near the burning building. It was not until the roof of the barn had fallen in and the inside had been badly gutted, that the fire was finally got under control.

The National Ice Company, which rents the structure from J. M. Davies, say that their loss will be under \$200, and is fully covered by insurance. It is principally of a load of hay, which was only put in the building yesterday. All their wagons and horses were saved.

The loss on the building, which is badly gutted by the flames, will amount to about \$1000, and is fully covered by insurance.

PETTY OFFENDERS.

The Usual Grist Before the Police

Court. In the Police Court yesterday U. S. Dan-ief, charged with battery, failed to put in an appearance, and a warrant was an appearance, and a warrant was issued for his rearrest. He was out on \$15 bail. Ah Hing, the Chinese highbinder, was fined \$25 for carrying concealed weapons. Hing was one of the Chinamen hanging about T. B. Burnett's place on Estrella avenue last Monday, on the lookout for a Chinawoman, whom they thought was concealed in that neighborhood.

a Chinawoman, whom they thought was concealed in that neighborhood.

William O'Neill was sentenced to \$20 or twenty days by Justice Austin yesterday for breaking jail last May. The authorities are very anxious to get rid of O'Neill in this city, and so the commitment was suspended and the man given until 5 o'clock yesterday afternoon to get out of town. He went in a hurry.

Sentence was pronounced on the seven vags, who were given "floaters" of from five to fitteen days each, so that in case any of them are still in the city they will at once be given an opportunity of working out their time in the chain gang.

Andrew Meissen, who was arrested for buying a lottery ticket from Max Kaufman last Sunday, was sentenced to a fine of \$15 yesterday. The court was inclined to be lenient with Meissen, as Kaufman, the principal offender, had been duly punished, and so the commitment was suspended.

Bitten by a Vicious Dog.

A boy named Howery Rampe, residing at the corner of Third street and Bunker Hill avenue, was bitten by a dog about 6:30 o'clock last evening. The boy was walking along on South Spring street, between Fourth and Fifth, at the time. The dog belongs to Mrs. Ellis, residing at No. 418½ South Spring street.

Misused a Mimeograph. Anna Cushing and Helen Broderick swore out a complaint yesterday against W. J. Estabrook, charging him with embezzlement. The specific offense was the misuse of an Edison Mineograph of the value of \$25, which they had entrusted to his care.

WE advertise in twenty country papers and also the Times which we pay for; we also see a lot of boycott posters on the street that we are advertised in free gratis for nothing. We close every night in the week, and grant all our employees one week's vacation with pay in advance. For this tribute to our employees a few irresponsible kangaroos are trying to boycott us; we have hung one of these circulars in our windows so that our name can be kept before the public at all times. My advertisement did not appear in The Times for over two months, and during that time we did not sell these boycotters one dime's worth of goods; as far as any trade they can control, or any influence they can yield it is a myth. We treat the public well, we represent goods honestly, we refund money on anything you don't want, we employ the highest class of clerks and pay the best salaries in the city; if there is a single individual in this city that does not want to trade with us because we advertise where and when we please, they are at liberty go elsewhere for their goods; we will keep open just the same. During the past year we have not reduced a salary; we have discharged no hands without a cause; we don't b lieve in reducing salaries; that is the platform upon which we stand. We have been boycotted for three years and have been increasing our business right along; we believe when the respectable element of this city understands this fac our trade will show larger gains. When you come to do your trading on account of the boycott kindly make mention of this fact to the salespeople; they will report the fact to the office. If the ring-leaders of the boycott would pay their honest debts their influence would be stronger. want it understood we are boycotted; tell your friends Sheward is boycotted; give him the old harry; go for him; that will save us from reaching out for more advertising. Now just a few words about goods. The new dress goods, Covert Cloths, 9 different shades, the coming fabric for fall. we have them. A little lot of Black Dress Goods, 38 to 40 inches wide, 65c a yard, they are English Mohair Jacquards. This week we make capes free for all who buy their material here; this is done to keep a number employed who need the work. We are boycotted while extending this aid to a number of worthy ladies who need the work. We certainly pay these ladies while we are making these capes free. Don't you need a cape? We give the profit to the unemployed ladies who need the work.

PASADENA, Aug. 15.—(Special Correspondence.) The friends of Lang C. Winston derive some sad satisfaction from the news received today, which, unless some strange, almost impossible, mistake has been made, clears up the mystery of that unfortunate man's disappearance, and dis-pels the suspicion some persisted in enbeen made, clears up the mystery of that unfortunate man's disappearance, and dispels the suspicion some persisted in entertaining that he still lived and remained in hiding for some inscrutable reason. Two young men from Los Angeles, named Macy and Meiggs, arrived in Pasadena today and inquired for Mrs. Winston and W. S. Wright, the lawyer. Police officer Bristol directed them to the office of the latter, who heard the tale they told. They, in company with others, were on a hunting expedition in the mountains north of Pasadena, and found the remains of a man long dead. They gathered up certain of the dead man's belongings, including a watch, pipe, belt, knife and other articles on which the name and address. of the odiscoverers a clew to the dead man's identity, and sent them hither with their relics. Mr. Wright and Peter Stell, accompanied by the hunters, departed at 2 p.m. for the scene of the discovery. As theyoung men said they could not find the, place by going direct over the mountains, the party went around the same route the discoverers had come in—by rail to Newhall, thence across the desert to Little Rock Creek Canyon, where the body is supposed to remain until it can be brought in.

It will be remembered that the disappearance of Winston, a respected citizen of Pasadena, was quite singular. He was rith companions on a hunting expedition in Little Rock Creek Canyon last November. When the party broke camp he went suit to bring in the burros, and never came back. His companions searched for him, but could find no trace. A bilinding snow-storm prevailed at the time, and E was accessarily given up for lost. The news at that time caused much excitement in Pasadena, and there were conflicting speculations on the truth of the matter. Winston was insured for \$2000 with the Ancient Order of United Workmen, but, in the absence of proof of death, the widow could not receive the insurance. Mrs. Winston made a standing reward for the discovery of her husband, dead or alive, and though this incentive, as well as humanity, sent many searching parties into the mountains, no trace has been found of the missams man until now. If the remains canot, by measurements and other tests, be destrified, it is probable that the circumnances of the finding of the personal property may be deemed conclusive evidence that Lang C. Winston died alone in the lasert, about fifteen miles from where he all his companions.

Eight bundred dollars is what the relief fund for the assistance of the family of the late Detective A. O. Benson now aggregates, exclusive of the quantities of provisions and other commodities that have been donated. Yesterday efternoon a whole wagonload of supplies was sent to the stricken home and ther is no doubt but that it will prove highly acceptable.

But this isn't all by any means. Chief of Police Glass, with several members of the City Council, made a personal canvass yesterday afternoon with a particular object in view, and it can be said as a result of their afternoon's work that the erection of a comfortable home for the whole and he children will shortly be commenced. Sixteen thousand feet of lumber companies in this city, besides brick and lime, and paint, and hardware, and all sorts of meterial necessary to the building of a comfortable little cottage.

A gentleman who owns a lot on Alpine street, near Temple, came forward yesterday and offered to give it for \$50, although it had cost bim \$250, and it is the intention to take this fot and build upon it.

As somebody said yesterday the death of Detective Benson has given the people of this city an opportunity to show that they appreciate a good officer on a heir police force. Contributions Still Pouring in.

AGAIN IN TROUBLE.

NOTORIOUS JOE CHAMBERS IS AGAIN HEARD FROM.

Carrying Things With a High Hand on Pico Heights-A Brutal Assault on an Old Soldier.

The citizens of Pico Heights are at present greatly excited over the present in their midst of a pair of very undesi able characters, who occasionally make matters lively in that vicinity and against whom the arm of the law has so far bee

te and that was thought to be

license for his saloon. The collector, knowing the former character of the place, refused to grant it. Billy went away disconsolate, and that was thought to be the end of the matter.

Some time ago stories from various quarters commenced to come into the collector's office. It was learned that Joe Chambors, who has been given a "floater" by she police judge, was often seen in the neighborhood. It was also learned that Maud Cameron had opened the Manning saloon and was dispensing soda water and soft drinks with a liberal hand, while it was whispered quietly that if "the other cye was winked" fluids of a stronger and more exhilarating kind could be readily obtained in exchange for coin of the realm.

The matter was turned over to Assistant County License Collector J. T. Matlock for investigation, but as he was too well known to act in person he obtained the services of John West, an old soldier from Santa Monica, and instructed him to go out and see if he could buy a drink.

John West visited the locality and dropped into the saloon several times, but all to no purpose. He could obtain the "sweetened wind and water," and the other beverages, whose corks fly out with a bang, but the "ruby" which his heart longed for was withheld. At last one morning he drove out in a grocer's wagon and his companion being a thirsty soul, stopped in front of the Manning saloon, both got out and irrigated to their heart's content with "blue rum."

West at once reported the occurrence to the collector, warrants were issued for the arrest of the illusive Mand, and last Tuesday Assistant District-Attorney Utley went out to try the case before Justice John McLean. Some thirteen persons had been subpoened to act as jurors, but just here is where the trouble commenced. Many of the people of Pico Heights are Joe Chambers's friends, there are fraid to so express themselves. One after another of the jury were excused until only four remained. It was then agreed to try the case with these four. West stated that he had only the people of the p

ined \$20, for committing an unprovoked assault.

After this little pleasantry had been disposed of, the four jurors marched in and with placid faces announced a verdict of "not guilty."

It is rumored that two of the jurors were intimate friends of Chambers, and one of the remaining two a staunch Prohibitionist.

Chambers, who was formerly foreman of street railway barn at Washington street and Vermont avenue, has many friends in the neighborhood, and, although indignation at the result of the verdict among the respectable residents of the Heights is at fever heat, no one dares to remonstrate, through fear of personal injury.

In one sense, almost a reign of terror exists in the vicinity of the saloon, and Chambers and his consort rule, notwithstanding the laws of the realm.

LETTERS TO THE TIMES.

To Fight 'Skeeters.

LOS ANGELES, Aug. 16, 1894.—(To the Editor of The Times.) "As I have had no little experience and some success in meeting the annoyance of the mosquito pest, I may be able to give some suggestions to your correspondent, the "Victim." An invasion of large mosquitoes, especially of the cesspool variety, is no slight 'matter. The restless nights of the children and invalids, and thereby the wakeful hours of the mothers and nurses, are not always all of the infliction. I have often seen young children and babies with faces and limbs painfully swollen and discolored from the bites of the poisonous insects. The first thing, of course, when living in an infested locality, is to provide good screens. If wire is too expensive, or the landlord stronghearted, cotton netting nailed on the outside of the window-frame, preferably the whole length, is a great protection. It will last several months.

To get rid of the mosquitoes already in a room, place over a lamp, turned very low, or better still, over a candle, on any kind of a framework to support it, a tin pan. Let it be of such a shape that its contents will gravitate to the center over the blaze, rather than toward the edges. A pleec of gum camphor, the size of a large walnut, allowed to slowly melt in the pan will fill the room with its penetrating pungency and drive every mosquito to hunting an exit. It is best to provide it or kill them as they gather on the windows; or, if one can be generous with the camphor and keep the room tightly closed for an hour or two, those particular insects will have had their last banquet. As to the enemy without the gates, the young and ambitious ones can readily come through the meshes of ordinary wire screen, more readily, in fact, than through netting.

In the early evening, when they begin to seek entrance, wipe the screens with a To Fight 'Skeeters.

screen, more readily, in fact, than through netting.

In the early evening, when they begin to seek entrance, wipe the screens with a cloth or sponge well saturated with coal oil. In windows fitted with the ordinary screen (half length.) if the window be raised any less than the full length of the screen there is a large space left for them to flock in by. If there are covered cesspools in the vicinity with "chimneys" or openigs the ounce of prevention is to tie two thicknesses of fine screening over them, being careful to have the meshes cross. I have known that precaution to entirely free a small neighborhood of the mosquito pest.

CULEX.

LOS ANGELES, Aug. 16.—The Herald and Express were made fast friends during the strike, when The Times had the honesty and courage to stand for law and order, while the rabble were crying. "Away with him!" Away with him!" It is a little amusing, or would be if it was not so contemptibly cheeky, to see these journals that lent all the influence they had to foster and encourage the strikers, crawfish and try to regain the lost, confidence of the well-informed and thinking peonfe that they forfested during the strike. Those journals whose only support is by what they can make by dropping into the current with the law-less and unthinking masses, because they have neither the ability nor the courage to stem the tide, will sooner or later find themselves a part and parcel of that element, and will have to look to them for their support.

element, and will have to look to them for their support.

We are very careful, or should be, what teachers we put into our public schools, and we should be quite as much so with the educators of the people, our public journals. Those journals that were willing to put themselves on record as disloyal to our government and turn traitor to it, just at the 4tme when it was most in need of their support, because they thought they could see in it increased patronage, and, if possible, wreak a little vengeance upon a rival, made a grand mistake in supposing that we Americans held so lightly our pledge to our government that we would follow them in their unlawful abuse, both of our government and those who are chosen to execute its laws.

held so lightly our pledge to our government that we would follow them in their unlawful abuse, both of our government and those who are chosen to execute its laws.

Sixty years ago the writer was with his father, making a trip on a steamer up Lake Erie, from Buffalo to Detroit, and when we landed at what was then the small town of Erie, the first thing to be seen was an Irishman and fils wife, engaged in a war of words. A bystander interfered to separate them, only to receive the blows of the lawful wife. All true Americans, however much they may disagree on minor points, will never stand by a traitor.

The above was written before the letter of M. D. Boruck appeared in The Times of the 14th, but that is so replete with facts, and set out in so much better light than anything the writer could say, that it would seem to be a waste of valuable space to amplify upon it. Every word he says weighs a ton. The law-abiding laboring people that these journals and agitators have sought to divide, deserve a rest. Aug. 16.—(To the Editor of The Times:) Will you ylease answer in your columns the following answer in your columns the following question; Can a person be held diable for making bullion of a \$20 gold plece, or for mutilating coin in any way whatsoever, whether one tries to pass the mutilated coin or not? What constitutes "mutilation of coin?" E. J. S. (1.) Yes; under sec. 5459, which reads as follows:

(1.) Yes; under sec. 5459, which reads as follows:

"Sec. 5459. Every person who fraudulently, by any act, way or means, defaces, mutilates, impairs, diminishes, falsifies, scales or lightens, the gold or silver coins which have been, or which may hereafter be, coined at the mints of the United States, or any foreign gold or silver coins, which are, by law, made current, or are in actual use and circulation as money within the United States, shall be imprisoned not more than two years and fined not more than 12000."

(2.) It would clearly be mutilation of coin to destroy, or impair its utility, in the manner indicated.

London Financial Market.

NEW YORK, Aug. 16.—The Evening Post's London cablegram says thist there was a very strong bank return today, the proportion of cash to diabilities being nearly 68 per cent. Coin and bullion increased £143,000 to £38,804,000. Of this £184,000 were imported. The stock market, after opening dull, closed strong all around, American securities finishing mear the best. Denvers were cepecially strong on silver. Foreigners are now buying American stocks targely. A feature today was the sharp rise in silver. Bars were very strong at 294d. Ohna is buying two months ahead. Rupee paper, Mexicans and other silver stocks are booking, the Germans buying. Various reasons are assigned for the rise, chiefly rumors of a large loan to China and Japan impending, but nothing definite is known.

RESUME OF THE LOCAL BUILD ING OPERATIONS.

nething in the Nature of a Reve-lation to Many People—Board of Equalization's Last Day-Brevities.

PASADENA, Aug. 36.—(Special Correspondence.) The resume of building operations now in progress in Pasadena, printed in The Times on the 13th inst., caused much nomment here, and appears to have attracted attention elsewhere, it being something like a revelation to a great many people. It is safe to say that few, if any, other cities of the same population in this country can make as good a showing at this time, considering this is the "dull season" here and the busiest season in the East. There is no "boom" in Pasadena, no speculation, no excitement, no Talse values—nothing but a steady, substantial growth, which, if anything, is yet really behind the actual needs of the increasing and prospering population. Every one of the unfinished, houses enumerated in the list referred to is being built for a walting occupant, whether owner or tenant—many for new citizens, recently airlived from the East, who have fallen in love with Pasadena and its manifold beauties of earth, air and sky, and have the means to gratify their comfort and taste. At this time in this year not many people can gratify their wishes by building dwelling-houses costing \$5000 and \$10,000, but in Pasadena there are several on which the plant is scarcely dry, others now in the hands of mechanics (as was shown in the Times' list,) and still others that are being evolved by architects on orders from wealthy parcos. to be materialized in the immediate future. One who has recently traveled all over this section declares that Los Angeles and Pasadena are the two liveliest cities on the Pacific Coast, giving the best evidence of prosperity—this without disparagement of sister cities of Southern Caiffornis.

ORANGE COUNTY.

THE POLITICAL SITUATION IS BECOMING INTERESTING.

Dissensions in Democratic Ranks-Sales of Real Estate—The Ful-lerton High School— News Notes

SANTA ANA, Aug. 16.—(Special Correspondence.) Politics in Orange county are boiling in earnest; and, from present indications, steam will be kept up now until after the 6th of. November next. The Republicans are having more fun than a whole box of monkeys over the dissentions that have been cropping out in the ranks of the local Democracy the past week or ten days, and the Democrata are advising the Republicans not to go too rapid; that he who laughs last laughs best, and that there is plenty of time yet for "fun" to come out of Republican harmony. As the Populists have now begun to stir themselves and to anneunce speakers of State reputation to address their meetings, and Prohibitionists are resolving themselves into a temperance party, matters political are becoming interesting, and from this time forth, until after the date of election, the political atmosphere of Orange county will quite likely be at fever heat, to say the least.

the new chairman, A. D. Norman, took charge. George J. Magley was chosen secretary.

Attempts have been made by Republicans to make it appear that there is a split in the Democracy over the choice of chairman of the county delegation to the State Convention. E. W. Britt was preferred by many, but Mr. Britt is out with a statement to the effect that a clear majority preferred J. F. Kinney, and he himself moved to make the choice unanimous. Mr. Britt is high in the esteem of Republicans as well as permocrats, and he is regarded as too broad and to permit discord if he can prevent it.

CARELESSNESS IN MAKING UP. THE GREAT REGISTER

SAN BERNARDINO, Aug. 16.—(Special Correspondence.) An examination of the Great Register now being prepared for this county abows gross carelessness on the part of some of the deputies of the County Clerk, especially in the matter of registering men of foreign nativity, who do not show, or the clerks do not record, the evidence of naturalization, and also in souble registration. A casual examination of the Great Register shows several of foreign birth without evidence of naturalization. There are also upon the register the names of Frank S. Baker, J. W. Boyd, George Sherling, S. Deblois, R. Cody, Frank Dean and H. Roberts, members of the "Industrial Army," now confined in the County Jail serving sentance for contempt of court, pronounced upon them by Judge Ross of the United States Court at Low Angeles, had committed, to this fail. There are tweaty-sive of these men.even at least, of whom are registered here. None of them have their names upon the old Great Register, and they came here with the "army" from San Francisco.

REDLANDS. Aug. 16.—(Special Correspondence.) There was a lively skirmish at the meeting of the City Trustees last evening—in fact, there were two of them. One was concerning the claim at J. A. Rivera. Deputy City Marshal during the absence of Marshall Kendall, who put in a bill for 350 for services. The bill was read with others at the meeting last week, and the question coming up as to its legality, it was laid over for one week. When it came up last night the Trustees were disposed to pass it, if it was legal, but City Attorney Bennett Hiterposed a legal objection, maintaining first the bill was not allowable, and citing the ordinance passed last winter in which all city officers are compelied to pay all deputies from their own salaries; also from the code, he showed that during the absence of the Marshall the deputies shall, receive as compensation all fees, which are the same as pald constables. Marshal Kendall said that it was agreed by members of the board that, "he should not less a cent by reason of his taking a vacation." In other words, the salary of his deputy should be paid by the city. One or more members of the board denied this. Kendall turned to Bennett and accused him of interfering with his (Kendallis) transactions with the board and using poor law to reach, in a technical way, the case in question, and to work injury to Kendalli. The City Attorney was severely segred, and he demanded of Kendall that he should retract the insulting language used. It looked

The Supreme Court has affirmed the order of Judge Torrence of the Superior Court of San Diego county appealed from in the case of Bryant Howard (respondent) for the reasons given in the following brief opinion:

in the case or Bryant Howard (responsent) vs. J. H. McChesney (appellant) for the reasons given in the following brief opinion:

"This is an appeal by the defendant McChesney from an order denying his motion to set aside a decree of foreclosule emiered against him by default. His motion is not based upon sec. 473 of the Code of Civil Procedure; he does not ask to be allowed to answer to the merits; it was mot made until more than a year after the rendition of the judgment. It rests entirely upon the theory that the judgment is absolutely void and could, therefore, be set aside at any time, on motion.

"Service was had on appellant by publication, and he bases his contention that the judgment is void upon the ground of the insufficiency of the affidavit of publication made before the entry of the decree and attached to the judgment roll. The publication was, by order of the court, to be for two months in a certain weekly mewspaper, and the affidavit stated that the summons was published in acid newspaper every week and weekly 'for the period of more than two months from November 26, 1891, to February 11, 1892, viz: 'then follows a statement of each seventh day between the two dates, except that of January 21, 1892, a regular day for me assuance of said paper, was omitted from the enumeration. The omission of that date is the only alleged defect in the affidavit. Before the motion to vacate was heard, the ourt allowed the person who made the first affidavit to file a second one which showed that publication was malle on said January 21.

"The order must be affirmed. The judgment is not void on its face. It contains a recitar of due service, and there is nothing in the record inconsistent with such roctal. The previous direct statement in the affidavit that summons was published each week for two months between two named dates is not overcome and rendered valueless by the subsequent statement under a videlicit. The most that can be said about the affidavit is that if is ambiguous. That which follows a videlicit do

ELLA BOWEN'S STORY. But Little Faith Placed in Her State-

The authorities no longer believe implicitly the sensational story told by the girl. Ella Bowen, about being ruined and brutally ill-treated by Walter Thomas of the Vickery Block, and think that it is a decided perversion of the truth. There is little doubt but that the girl was a common prositiute long before she ever met the Thomase. It is also probable that young Thomas aided and abetted her in her lewd practices and took money from her.

This will be sufficient to convict Thomas of vagrancy, when the case comes up for trial today.

Some Things

You ought to know, if you want to keep posted in what is going on in the dry goods line. First—That J. M. Hale & Co. are closing out their present stock in order that they may incorporate as a stock concern. Second—That in order to accomplish this at the present time, "the slack season" of the year, they had to make very great reductions in prices in order to dispose of the goods quickly. Third—That the vast number of people that have visited this store daily for the past three weeks have secured Grand Bargains, values they may never hope to secure again after the close of this great sale. We still have

GREAT BARGAINS FOR YOU! Some of which may be closed out this week. Thursday, Friday and
